

# 2015 SUSTAINABILITY AT A GLANCE

**SECURE**  
energy services

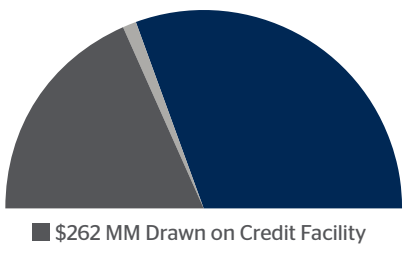

At SECURE Energy Services, sustainability begins with a strong cultural and financial foundation to ensure responsible growth. We are in the business of helping our clients operate in a more sustainable way, so we go above and beyond to ensure that the industry and communities we serve are enriched and protected for future generations.

"We are in the business of protecting the environment, and are proud of our commitment to exceed regulatory requirements with our products and services. In 2015, we continued to discover innovative approaches to help our clients manage their environmental liabilities while improving our health and safety record and launching initiatives that have led to continuous improvement. We embed a mindset of financial, environmental and social sustainability throughout the work we do. The accomplishments shared here are a direct result of that mindset and we are happy to share them with all of our stakeholders."

*R. Amirault*

**Rene Amirault**  
President and CEO

In 2015, we raised **\$198 million** of equity financing and we also extended the maturity date of our existing **\$700 million** syndicated credit facility by one year.

Decreased our corporate safety **Total Recordable Incident Frequency ("TRIF")** by **18%**.

We were able to save close to **\$10 million** from *Continuous Improvement* initiatives by improving our processes and reducing our costs.

We opened **3 new facilities** in strategic areas to meet the needs of our clients for a total of **38 facilities**.

**GENC**  
CARING FOR OUR COMMUNITIES

We launched **GENC: CARING FOR OUR COMMUNITIES** which is a campaign focused on monthly giving opportunities to support our communities in need through volunteerism and sponsorship.

We donated over **\$300,000** to local charities and organizations throughout our Canadian and US operations.

**136** EMPLOYEES  
**CONTRIBUTED**  
**532** HOURS OF  
**VOLUNTEERING WITH**  
**CALGARY BASED**  
**CHARITIES IN 2015.**

We completed **125 digs** for pipeline integrity totaling **3,700 m** of pipeline inspected.

We have completed **1,000+** environmental site surveys for our clients.

We remediated and reclaimed over **130 acres of land** for our clients throughout Western Canada. That is the equivalent of almost **65 Canadian football fields**.

We avoided **2,500,000 kms** of water hauling by truck through the use of high-tech pumping and transfer equipment offered as part of our Integrated Fluid Solutions.

Recycled over **17 million kgs** of steel, totaling over **\$2 million** in recycled steel credit for our clients.

We recovered over **13,000 m<sup>3</sup>** or over **81,000 barrels of oil** from upstream oil and gas by-products.

Our OnSite division installed **100 m** of capped sheet piling to prevent further shoreline erosion on the west side of Alberta's Blood Indian Park Reservoir.

Safely managed over **8.5 million m<sup>3</sup>** of oilfield fluids.

Safely disposed of **1.5 million tonnes** of oilfield solids.

We continued to build lasting partnerships with **government, academia** and **industry** by:

- studying the life cycle fluid footprint of hydraulic fracturing in British Columbia
- researching the continuing breasting activity of the Western Boreal of the Westinghouse Toad at our Fox Creek Landfill
- piloting a research project to find a safe, cost-effective and environmentally friendly solution for the treatment of PCB contaminated soil

We continued to develop our innovative drilling, completions, chemical EOR and production chemical solutions that improve efficiencies, optimize production and reduce environmental impact.

We were a participant in two **Alberta Environment and Park Committees** to develop a new policy for water re-use and piloting a new process for the development of new regulations and policies.
